

Attendify V1 Specification

Product Goal

Attendify helps colleges and class representatives manage attendance, announcements, timetables, and resources in a simple and reliable way.

The primary goal of V1 is accurate attendance management.

Reliability is more important than features.

User Roles

Admin

Admin is:

- You
- Class Representatives authorized by you

There is NO Super Admin role in V1.

All admins use the same admin system.

Admin permissions:

- Create Classes
 - Edit Classes
 - Manage Students
 - Assign Class Representatives
 - Manage Subjects
 - Mark Attendance
 - Post Announcements
 - Upload Resources
 - Manage Timetables
-

Student

Student permissions:

- View Attendance

- View Attendance History
- View Timetable
- View Announcements
- View Resources
- View Profile
- View Classmates

Students cannot edit anything.

Authentication

Admin Login

Required:

- Real Google Authentication
- No Demo Credentials

Remove:

- admin@gmail.com
- admin@123

Access Flow:

Google Login → Check approved admin email → Allow access

Unapproved emails cannot access admin features.

Student Login

Student joins class using:

- Name
- Roll Number

After joining:

Student logs in using:

- Roll Number
- Password (or secure alternative)

Roll Number alone is not sufficient security.

Session Persistence

After login:

- Refresh should not log user out
 - Browser restart should not log user out unexpectedly
 - Sessions should persist correctly
-

Class System

Create Class

Fields:

- Class Name
- Periods Per Day

Optional:

- Class Code (identifier only)

Example:

Class Name: BCA A Periods Per Day: 8

Class Management

Admin can:

- Edit Class Name
 - Edit Period Count
 - Manage Students
 - Manage Subjects
 - Assign Class Representative
 - Delete Class
-

Class Representative

Each class can have one Class Representative.

Only Admin can assign or change the Class Representative.

Students can see:

★ Class Representative

Example:

Harish Ragavan Class Representative

Student Management

Admin can:

- Add Student
- Remove Student
- Edit Student
- Search Students

Student Data:

- Name
 - Roll Number
 - Class
-

Student Visibility

Students can see:

- Student Names
- Class Representative

Students cannot see:

- Roll Numbers

Roll Numbers are visible only to Admins.

Subject System

Each class contains subjects.

Example:

- Java
- Python
- DBMS
- English
- Environmental Studies
- Naan Mudhalvan

Admin can:

- Add Subject
- Edit Subject
- Remove Subject

Subjects may change between semesters.

Attendance System

This is the core feature.

Attendance Structure:

Class → Subject → Date → Student

Example:

BCA A → Java → 14 June → Students

Attendance States:

- Present
- Absent

Future statuses can be added later.

Attendance Requirements

Attendance must:

- Save correctly
- Persist after refresh
- Persist after logout/login

- Persist after browser restart
- Never silently fail

If saving fails:

Show error.

Do not show false success.

Attendance History

Students can view attendance history.

Example:

10 June - Present 11 June - Absent 12 June - Present

Purpose:

Students understand how their attendance percentage was calculated.

Attendance Calculator

Student can:

- View Current Percentage
 - Calculate Required Attendance
 - Calculate Safe Leave
-

Timetable

Each class has:

- Weekly Timetable
- Daily Timetable

Admin can edit timetable.

Students can view timetable.

Announcements

Admin can:

- Create Announcement
- Edit Announcement
- Delete Announcement

Students can view announcements.

Resources

Admin can:

- Upload Notes
- Upload PDFs
- Upload Previous Year Questions

Students can:

- View
 - Download
-

Dashboard

Admin Dashboard

Show:

- Total Classes
 - Total Students
 - Today's Attendance
 - Quick Actions
-

Student Dashboard

Show:

- Attendance Percentage
- Today's Timetable

- Announcements
 - Resources
-

Onboarding

Screen 1: Track Attendance

Screen 2: Stay Above Eligibility

Screen 3: Resources & Announcements

Screen 4: Get Started

Branding

Required:

- App Logo
 - Splash Logo
 - Login Logo
 - App Icon
-

Domain

Remove preview branding.

Current preview URLs should not be used as public links.

Use a proper Attendify domain before public launch.

Performance Requirements

Must support:

- 100+ Students
- Multiple Classes
- Multiple Subjects
- Daily Attendance Records

without data loss.

V1 Exclusions

Do NOT Build:

- AI Features
- Chat
- Social Feed
- Marketplace
- Parent Login
- Resume Builder
- Internships
- Heavy Gamification

V1 Focus:

Reliable Attendance Reliable Authentication Reliable Class Management Reliable Student Management
